

March 21, 2020

With the COVID-19 Virus entering the State of South Carolina we knew that it may visit us in Greenwood County. On Saturday Morning the County was made aware that our first two COVID-19 cases have been confirmed. Now that the COVID-19 has been confirmed in Greenwood we need to ensure that we take additional measures to prevent the spread of this disease; therefore on Monday when you arrive at work you will see noticeable changes to our operations. Public buildings will be closed to the public; however, there will be normal operations inside each of the buildings. Some of the changes are as follows:

- The Courthouse will be closed to the public. At the main entrance there is a drop box for all payments and paperwork as well as a phone if you need to speak with a department.
- All offices in Park Plaza are closed to the public with the exception of Voters Registration (see below). The public can come to Room 102 where a phone is available to call offices with questions.
- The Parks and Recreation buildings, not the parks themselves, are closed to the public.
- The Veteran Affairs office is restricting the number of walk-ins. The public is strongly encouraged to call (864) 450-9268 to schedule an appointment.
- County Public Works building is closed to the public.
- The Library and Museum will remain closed to the public.
- Voters Registration is open and operating as normal.

As more information is made available, we will keep you informed.
