

March 31, 2020

As of 6 p.m. on 30 March, Greenwood County had 3 confirmed cases of COVID-19.

Yesterday, DHEC reported 151 new cases for a total of 925 in 40 counties. Additionally, they reported two new deaths for a total of 18. The deaths occurred in Beaufort and Anderson counties and both individuals were elderly and had underlying health issues.

*On Sunday, there was one additional death which was not on my update. The individual was elderly and had underlying health issues from Horry County.*

Social distancing is very critical for the duration of this emergency. Individuals should remain at home except for necessary outings such as grocery stores, work, etc.
