

April 5, 2020

As of yesterday's report, Greenwood County had one additional confirmed case in the county for a total of 10 cases. *Remember this is only those which have been confirmed and is for those who were tested two days ago. This means there are others who have been tested and are in quarantine awaiting results. Additionally, an individual can be asymptomatic, (contagious but shows no symptoms), who would not meet the criteria to be tested.*

The first two cases in Greenwood County were reported over 15 days ago, so there are 2 individuals who should have recovered from the virus. This brings Greenwood County's remaining total of active confirmed cases to 8. *This number is an **estimate** based on the following: Most individuals recover from the virus within this time frame; no deaths have been reported for Greenwood County.*

SCDHEC reported an additional 217 cases in 46 counties for a total of 1,917 . Also, they reported 6 new deaths in five counties for a total of 40; Lexington, Beaufort, Georgetown, Richland and York. All individuals were elderly and had underlying health issues.

As of 3 April 2020, SCDHEC and private labs have tested 18,314 individuals. Of this number, *(remember this information is 2 days old)* 1700 have tested positive and 16,614 have tested negative across the state.

It takes a community to defeat a virus. Do your part by practicing social distancing.
