

April 9, 2020

As of yesterday's report, Greenwood County had 2 additional confirmed cases in the county for a total of 14 cases confirmed since 21 March. *Remember this is only those which have been confirmed and is for those who were tested a minimum of two days ago. This means there are others who have been tested and are in quarantine awaiting results. Additionally, an individual can be asymptomatic, (contagious but shows no symptoms), who would not meet the criteria to be tested.*

The first three cases in Greenwood County were reported over 15 days ago, so there are 3 individuals who should have recovered from the virus. This brings Greenwood County's remaining total of active confirmed cases to 11. *DHEC does not track recovered individuals, so this number is an estimate based on the following: Most individuals recover from the virus within this time frame; no deaths have been reported for Greenwood County.*

SCDHEC reported an additional 139 new cases in 46 counties for a total of 2,552. Also, they reported 12 new deaths in eight counties for a total of 63; Clarendon(1), Horry(1), Kershaw(1), Laurens (1), McCormick(1), Newberry(1), Richland(3),.and Spartanburg(3). There were 10 elderly and 2 middle aged individuals with underlying health issues.

As of 7 April 2020, SCDHEC and private labs have tested 24,634 individuals. Of this number, 2,552 have tested positive and 22,082 have tested negative across the state.
