

April 10, 2020

As of yesterday's report, Greenwood County had 1 additional confirmed case in the county for a total of 15 cases confirmed since 21 March. *Remember this is only those which have been confirmed and is for those who were tested a minimum of two days ago. This means there are others who have been tested and are in quarantine awaiting results. Additionally, an individual can be asymptomatic, (contagious but shows no symptoms), who would not meet the criteria to be tested.*

The first three cases in Greenwood County were reported over 15 days ago, so there are 3 individuals who should have recovered from the virus. This brings Greenwood County's remaining total of active confirmed cases to 12. *DHEC does not track recovered individuals, so this number is an estimate based on the following: Most individuals recover from the virus within this time frame; no deaths have been reported for Greenwood County.*

SCDHEC reported an additional 241 new cases in the state for a total of 2,792. Also, they reported 4 new deaths in eight counties for a total of 67; Anderson(1), Beaufort(1), Lexington(1), and Lee(1). All were elderly individuals with underlying health issues. To view additional information, see DHEC's [map page](#).

As of 8 April 2020, SCDHEC and private labs have tested 26,296 individuals. Of this number, 2,792 have tested positive and 23,504 have tested negative across the state.
