

April 16, 2020

As of yesterday's report, Greenwood County had 1 additional confirmed case in the county for a total of 19 cases confirmed since 21 March. *Remember this is only those which have been confirmed and is for those who were tested a minimum of two days ago. This means there are others who have been tested and are in quarantine awaiting results. Additionally, an individual can be asymptomatic, (contagious but shows no symptoms), who would not meet the criteria to be tested.*

The first six cases in Greenwood County were reported over 15 days ago, so there are 6 individuals who should have recovered from the virus. This brings Greenwood County's remaining total of active confirmed cases to 13. *DHEC does not track recovered individuals, so this number is an estimate based on the following: Most individuals recover from the virus within this time frame; no deaths have been reported for Greenwood County.*

SCDHEC reported an additional 105 new cases in the state for a total of 3,656. Also, they reported 10 new deaths in nine counties for a total of 107; Colleton(1), Georgetown(1), Greenville(1), Kershaw(2), Lancaster(1), McCormick(1), Richland(1), Sumter (1), and Spartanburg(1). Seven were elderly individuals with underlying health issues. There was also one elderly individual whose underlying health issues are still being determined and two middle-aged individuals with underlying issues.

As of 13 April 2020, SCDHEC and private labs have tested 34,733 individuals. Of this number, 3,656 have tested positive and 31,077 have tested negative across the state. To view additional information, see [DHEC's map page](#).
