

April 30, 2020

As of yesterday's report, Greenwood County had 2 additional confirmed cases in the county for a total of 46 cases confirmed since 21 March. **(Over the last two days, DHEC has adjusted the number of cases in Greenwood as they discover information which changes the county of residence of the individuals. This is why our totals have remained the same even though our daily count has risen.)** *Remember this is only those which have been confirmed and is for those who were tested a minimum of two days ago. This means there are others who have been tested and are in quarantine awaiting results. Additionally, an individual can be asymptomatic, (contagious but shows no symptoms), who would not meet the criteria to be tested.*

The first 18 cases in Greenwood County were reported over 15 days ago, so there are 18 individuals who should have recovered from the virus. This brings Greenwood County's remaining total of active confirmed cases to 28. *DHEC does not track recovered individuals by county, so this number is an estimate based on the following: Most individuals recover from the virus within this time frame; no deaths have been reported for Greenwood County.*

SCDHEC reported an additional 130 new confirmed cases in the state for a total of 5,881. Also, they reported 11 new deaths in the state for a total of 203; Beaufort(1), Berkeley(1), Clarendon(3), Florence(1), Greenville(4), and Richland(1). 6 were elderly individuals and 5 was middle-aged. For additional information on underlying conditions or other information in this section, please call DHEC at 1-855-472- 3432.

SCDHEC issued an additional press release which stated they have reviewed other deaths in the state and have identified 29 deaths associated with COVID-19 not previously reported. This brings the total deaths associated with COVID-19 to 232. None were from Greenwood County. See this [link](#) for the locations and dates.

SCDHEC and private labs have tested 54,217 individuals. Of this number, 5,881 have tested positive and 48,336 have tested negative across the state. To view additional information, see [DHEC's map page](#).
